Dear Fellow Hoosier,

As 2010 approaches, we are reminded of our successes, accomplishments and how we have grown over the last decade. Achievement and growth are often difficult to evaluate, but as Americans, we have an opportunity every ten years to measure just how much we've grown together.

The United States Constitution requires a count of all our residents to be taken at the beginning of every new decade. As Indiana continues to grow, it is crucial that each Hoosier is counted. The information you and your community provide will ensure our state receives its equal share of federal funds for public education, healthcare, transportation, agriculture and other vital services. A correct census will also ensure that Hoosiers have accurate representation in Congress.

Thank you in advance for your willingness to help keep our state moving in the right direction. I strongly encourage each and every Hoosier to participate in the 2010 census. Only together can we meet and overcome the challenges that await us in the coming decade.

Sincerely,
